Cross Roads TLC

Thank you for your referral to the Cross Roads Transitional Living Center (TLC) program of The Journey, LLC. This is a residential support service focused on transitioning the youth to independent living, and is geared toward 17-18 year olds. These young men live in an apartment like setting with Mentors on site whenever the residents are home that guide them through independent living skills. The clients are required to gain employment and further their education through schooling and work experience programs. They work through levels of accomplishment and trust, which determines their length of stay, typically between 4-6 months.
